

33-505 Technician's Service Kit

Professional grade 6 piece punchdown hip kit for terminating voice and data conductors to related networking and telecommunications equipment.

- Punchmaster™ II impact style punchdown tool with spring loaded mechanism delivers a additional force to seat and cut conductors with less input force
- Includes two full blade sets - 110 (Data) and 66 (Telco) – each has cut/no-cut ends
- Ringer stripper for removing cable jackets.
- Scissors trim and straighten conductors
- Multi-bit screwdriver for panel and wall plate access
