IN-SURE® LEVER WIRE CONNECTORS

IN-SURE® PUSH-IN WIRE CONNECTORS

SPICELINE® IN-LINE WIRE CONNECTOR

INTRODUCTION

Electrical connectors have been at the heart of IDEAL's business for more than seven decades. Constant innovation in new connection technologies has positioned IDEAL as one of the world's leading manufacturers.

IDEAL connectors provide safe, dependable solutions for a broad range of low voltage wiring applications.

Designed to exacting European safety standards (EN 60998) and fully compliant with UK Wiring Regulations (BS 7671:2008), IDEAL manufactures a connector that's right for every job.

Our comprehensive range includes the wire connectors you need for an easier, more efficient job.

In-Sure® lever wire connectors provide the perfect solution for joining solid, stranded or flexible conductors. These versatile connectors have a compact design that takes up less room in junction boxes and enclosures.

- Accept solid, rigid and flexible wires
- 3 x faster to install - no screwdriver required
- Rigid wires simply push in
- Fully re-useable
- Check port for continuity testing
- Clear shell allows visual inspection
- Compact size

SpliceLine® in-line wire connectors provide a crimp-free, solderless butt splice. Accepts a broad range of wire sizes, allowing one connector to do the job of multiple through-crimps. Its end-to-end connection is also a great solution for pre-fab operations

- Tool-free, push-in through crimp
- Easily passes through standard knockouts
- End-to-end connection ideal for pre-fab operations
- 3 x faster to install compared to butt splices - no more crimping
